

BRIANNA IN THE RAINFOREST

This is a picture of me on top of a waterfall in the exotic Daintree rainforest. Before I arrived at the waterfall I was exploring the Daintree rainforest, to get through the rainforest I had to duck under hanging vines and climbed over buttress tree roots. It was very exciting and I got to see lots of different animals such as Cassowary's, all the different types of insects and many more. When I arrived at the waterfall surrounding me were loads of beautiful flowers and plants. I climbed up to the top of the waterfall and posed for the camera which was taken by Katherine my best friend.
