

Emily's Rainforest Trip!

This is a picture of me in a Rainforest; I'm enjoying the giant tree by hiding under the roots! I'm here on a school camp and only a few of us got to hide under the roots and I was one of the lucky ones! YAY! The best bit about this rainforest is that there are so many wonderful trees to hide under. We played hide and seek and I had the best hiding spots every single time! While I was under the roots I could see all these little critters under my feet it was really freaky but awesome. I saw so many different birds and wildlife it was so incredible! This Rainforest happens to be the Daintree. We have been learning about it in class and decided to go there on a school camp. We went to visit the Daintree everyday and went to the Discovery Centre and learnt heaps more about the Daintree. I really enjoyed my trip to the rainforest and I hope I will get the opportunity again.
