

Kate in the Daintree Rainforest

This is a picture of me in the rainforest .I don't really know how I got here why I'm in my school uniform, but besides that I'm loving it! The rainforest is full of decaying matter, in fact right now I'm finding it hard it hold my balance as it is very slippery up here! I have also seen some breath taking waterfalls as well as streams, rivers, beaches and magnificent flora and fauna. After I have finished sight seeing in this destination I will move on to the crystal clear waters of lake gongagra (named after an aboriginal tribe), then back to our hotel.

I look forward to seeing you on the 12th of July, until then
Kate
