

I am in the Amazon Rainforest.

Here is me in one of the many rainforests. It is damp and cold but I still here birds chirping and tigers growling. The water is cold and the rocks are mossy. I am experiencing rain and high winds but it is still the most beautiful place on earth. The rock that I am sitting is wet and has some kinds of bugs on it.

Occasionally I see fish and bugs in the water. There are tigers and jaguars waiting for me to move. There are other animals like orangutans, cassowaries, piranhas and 10000 more species.
