

Me in a rainforest

Well here I am in a rainforest where more than 50% of earth's creatures live. I am in Borneo and it's pelting down I'm soaked! I've had a few encounters with a tiger, a rhino and I fell into a deep river and a piranha took a bite at me, but I'm ok now. The animals are very territorial and I'm not welcome anywhere! My guide has just informed me that it is mating season and that an adult male rhino is on its way so I better go!
