

I am in the rainforest

I am in the forest standing beside a waterfall. It is a beautiful waterfall in the Amazon Rainforest. There are birds chirping, frogs croaking, and a waterfall splashing. The air in the rainforest is so fresh. The trees are so green. I feel as comfortable as I do in my bed. I really like the rainforest especially the environment. The water is as clear as the water we drink. The weather might be rather cold but still very enjoyable.
