

Me in a Rainforest

This is my special part of the Daintree Rainforest, in Queensland Australia. This is the place where I go twice every year with my family. It's extremely humid here, and the cool, refreshing water soothes the skin, and makes you tingle. I can hear the splashing of the waterfall, and the bird, making its soothing chirps, calms you down. It's such a nice place. It's my special place.
